EXPERIENCE

Glenair Stock MERN Project (working title), Swedesboro, NJ— IT Contractor/Web Developer

March 2024 - July 2024

- Helped build an e-commerce website that is almost the same as JRH Electronics ([JRH Electronics—Authorized Electronics Distributor](#)) e-commerce website, but dedicated to the Glenair Stock.
- Utilized MongoDB to obtain data, such as name, series number, etc.
- Utilized React to create the front-end of the page.
- Utilized APIs such as EmailJS and Passport to send emails to customers and encrypt passwords, respectively.
- Utilized CSS to style the website.

JRH Electronics, Swedesboro, NJ— IT Contractor

September 2021 - June 2024

Started as an intern; after a six-month period, was hired as a contractor.

- Built e-commerce jrhelec.com ([JRH Electronics—Authorized Electronics Distributor](#)) e-commerce website based on WordPress, PHP, JavaScript, and MySQL, which generated millions of dollars in revenue.
- Created Python APIs for getting data from vendors and pushing gathered data to the website.
- Participated in a data extraction process from the company's SAP system for the website.
- Wrote Excel VBA functions for exchanging data and creating files for uploading to the website.
- Uploaded new materials to the website and updated existing materials with live data.

eDataRun, Cherry Hill, NJ— Volunteer Assistant Developer

June 2016 - August 2020

- Assisted with developing an Android, Java-based, secured texting app in Google Play.
